

5 Winter essentials for dogs

1 Sweaters

This will keep your dog warm during winter.

2 Shoes

To protect the paws from frostbite

3 Winter Coat

To protect your dog from rain and snow during walks.

4 Heated Bed

To keep your dogs warm while they sleep

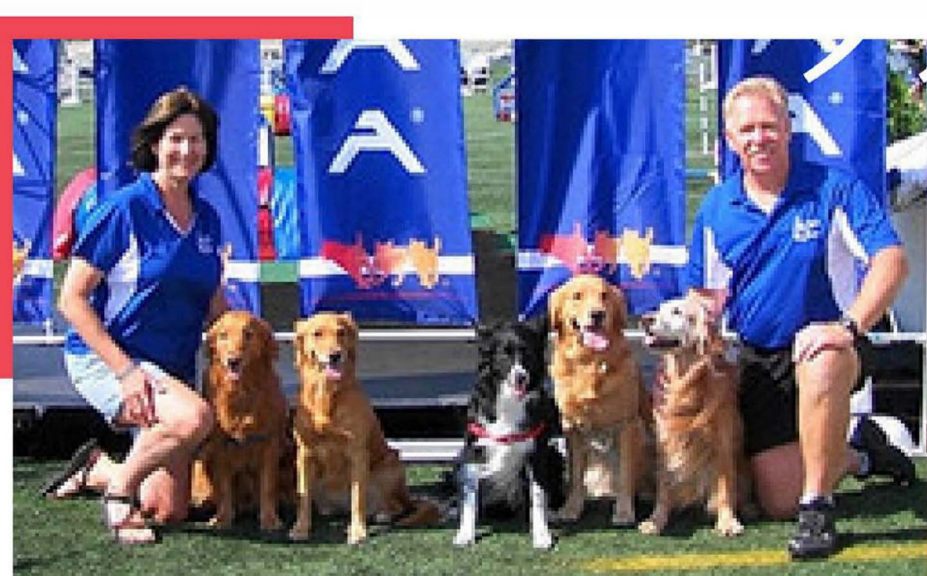

5 Pet Temperature Monitor

To monitor the room temperature and give you the peace of mind.

Most trusted pet monitor among pet parents.

Because my pets, all 6 of them, are my kids and they are treated like the little prince and princesses. They are our travel buddies and our source of joy, laughter and everything that words cannot explain. That is the reason why we use RV Pet Monitor both during summer and winter to protect our children. The temperature monitor is light and works like a charm. It monitors the environmental temperature and alerts us immediately if it rises above or below the threshold.
