

# Pupptreats

For the one soul that loves you the most.

## Ingredients:

Plain organic  
Greek yogurt

Natural peanut  
butter

Heart shaped  
ice tray

## Steps:

Heat up a little peanut butter and pour them on the base of the tray. The more you add, the thicker the top layer on the treats will appear. Otherwise the treat will melt soon.

Add yogurt to the top and press the top of it nicely such that it runs smooth at the top of the mold. This also helps in mixing the peanut butter and yogurt.

Freeze the treat for about 4-5 hours and pop them out. A rich protein snack for your pup is ready.
